

SPHAGNUM MOSS

mostique™

Sphagnum moss is a versatile media with many uses. New Zealand Sphagnum moss is considered the best in the world and is used for many applications including potting of Orchids, hanging baskets and decoration on the tops of plant pots. To enhance the decorative use of Sphagnum moss, Pacific Wide (NZ) Ltd has created **mostique™**; a range of spectacularly coloured Sphagnum moss to brighten up decorative applications.

Characteristics

Made from coloured natural Blended Sphagnum moss

Has the same properties as normal Sphagnum moss and can therefore grow high quality plants.

Good water and nutrient holding ability

Excellent strand strength and length for easy use

The colour is fixed therefore will not run out of the moss or stain its surroundings

Completely safe for plants

Excellent for colourful hanging baskets, decorating pot plants, cut flower wrapping of stems, floral art and many applications where Sphagnum moss is used.

An exciting vibrant range of colours available

Package sizes include 25g and 250g packs for commercial use

mostique™ is especially designed to brighten up the general use of Sphagnum moss using colours. Created by colouring Blended Grade Sphagnum, the end product has the same properties to that of normal Sphagnum moss but now comes in a range of vibrant colours. **mostique™** is perfectly safe to grow plants in and tests have shown that growth is sometimes enhanced when using **mostique™**. Since Blended Sphagnum moss has been used to produce **mostique™** the length and strength of the moss is very strong allowing the moss to be wrapped and compacted in various applications to produce colourful variations. The colour does not run and will not fade if kept out of direct sunlight. The product is excellent for use in floral art, decorating potted plants, growing orchids, coloured hanging baskets, enhancement of cut flowers in vases, topiary's and wreaths. **mostique™** is light and easy to handle just like other Sphagnum moss.
